WORK EXPERIENCE

Resume Worded, New York, NY

09/2015 – Present

Augmented reality startup with 50+ employees and \$100m+ annual revenue

PL/SQL Developer

- Developed 10+ tables and modified 20+ existing ones to support a product launch; recorded zero downtime during the transition.
- Provided senior management with efficient decision-making by creating 100+ complex SQL queries to support data analysis.
- Extracted data from 40+ sources and transformed them into a single format for easy reporting by creating 5 ETL packages using Oracle PL/SQL.
- Migrated over 100TB of data from an obsolete database server to a new one with zero downtime or loss of data within 20 days of employment.

Polyhire, London, United Kingdom

10/2012 – 08/2015

Provides quality assurance and control testing for global markets

Oracle Functional Consultant

- Championed the installation of Oracle Financials software at 20+ Fortune 500 companies, which increased 92% of their operational efficiency.
- Pioneered implementation of multi-tenant support services and a complete suite of Cloud Services for HR, sales, and 10+ other business units.
- Designed an e-commerce platform that enabled 7600+ clients to transact business via mobile devices, elevating Polyhire's earnings by 94% in the first year of implementation.

Growthsi, London, United Kingdom

07/2010 – 09/2012

Career training and membership SaaS with 150,000 paying users

SQL DBA

- Explained backup policies of data to leadership during a 20-day seminar that non-technical attendees attended.
- Controlled access to applications and data by 4000+ users, saving \$200K in annual licensing fees in the first year of employment.
- Consolidated 50+ SQL Server databases into ten and merged all company hardware, reducing 70% of the original hardware acquisition cost.
